Question 1

For the benefit of public health, vaccination should be compulsory. Do you agree or disagree with this statement and why?

Question 2

Should a policy of voluntary HIV testing for all pregnant women and compulsory HIV testing for all neonates be introduced into the UK? Why or why not?

Question 3

Describe and discuss the four eras of post-war smoking policy identified in the article: Berridge, V. (2003). Post-war smoking policy in the UK and the redefinition of public health. Twentieth Century British History. 14(1): 61-82.

Explain the major features of each era and examine the implications for contemporary public health and health policy.

Question 4

What are the goals of the ‘new’ public health and what are the major challenges of the ‘new’ public health?
