Answer two out of six questions

1. Outline the main principles of Phrenology and explain the problems with its application.

2. Identify the main strengths and weakness of having a national DNA database.

3. Compare and contrast the competing needs of crime investigation with those of human rights.

4. Despite the criticisms what is the impact of Lombroso’s theory to contemporary criminology?

5. Has the advancement in our knowledge of genetics settled the nature nurture debate once and for all?

6. Is criminality caused by a lack of morality? In your answer you will need to consider if people have an understanding between right and wrong.
