Module Title: The Psychology of Crime and Criminal Behaviour
Level: Four
Time Allowed: Two hours

Instructions to students:
• Enter your student number not your name on all answer books.
• Answer two out of six questions.
• All questions are equally weighted.
• Begin each question in a separate answer book; label each answer book clearly with the number of the question you are answering.
• Only work recorded in the answer books will be assessed.
• Neither books nor notes may be taken into the examination.

No. of Pages: 2
No. of Questions: 6
Answer **two** out of **six** questions.

1. What factors interfere with accurate eyewitness testimony? What can be done to improve the quality of such testimonies?

2. What is the relevance of social psychology in the study of crime? Discuss by providing research based evidence.

3. Is the connection between mental illness and crime based on factual evidence or media impressionism? Express your view with evidence.

4. Describe the way people acquire their moral development according to Kohlberg. What are the main problems with his theory?

5. What are the ethical issues deriving from experiments on deception and social situation, like Milgram and Zimbardo?

6. Outline the main features of attachment theory and relate it to explanations for criminal behaviour.
